INSTALLATION PROCEDURE

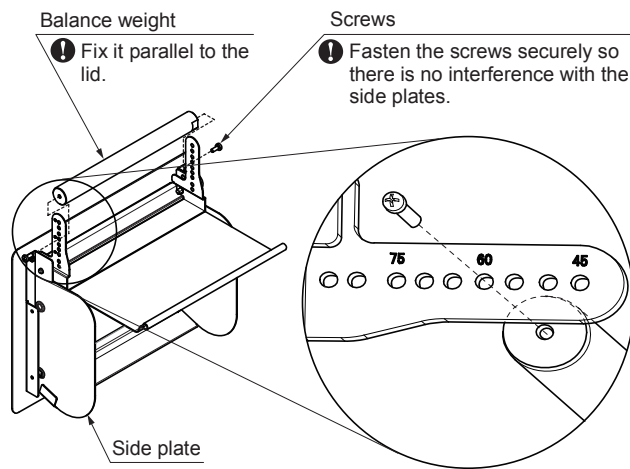

1

Make sure that the LAMP logo is at the top.

2

Position the balance weight according to the angle of mounting surface. (The factory setting is 45 degree.)

- [1] Unscrew the balance weight and re-fix it to the place which corresponds to the angle of mounting surface.
- [2] If the lid closes too fast or does not close fully, re-position the balance weight.

3

Do not leave any gap between the flap lid body and the mounting surface.

4

- [1] Having opened the lid, insert the screws through the provided access holes (two on each side) and fasten the flap lid body securely.
- [2] Make sure that the final assembly is securely fastened.

5

Slowly open and close the lid completely a few times in order to ensure correct operation.

6

Cover the access holes with the cover caps provided.

7

Paste the warning sticker in a visible position to avoid any injury when operating the lid.
